

On the Subject of Souvenir

Something to remember your explosion by.

Souvenir asks questions about the state of other modules that you solved prior. Answer all the questions correctly.

If a module reset itself upon a strike, the question about it is assumed to refer only to successful runs or stages.

If the answers are audio clips, tap an answer once to hear the clip and tap it again to submit it as your answer.

A full list of questions that may come up can be found on the KTANE Repository of Manual Pages:
